

WATSON ASSISTANT FOR CHATBOT

Date	04 November 2022
Project name	AI based discourse for banking industry
Team id	PNT2022TMID41030

The screenshot displays the IBM Cloud console interface for managing a Watson Assistant resource. The browser address bar shows the URL: `cloud.ibm.com/services/conversation/crn%3Av1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3Aa%2F8dc22086a97c449db1bbf6e507ca33a...`. The console header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (Monisha J's Account). The main content area is titled 'Watson Assistant-zj' and indicates it is 'Active'. A left sidebar under the 'Manage' tab lists 'Service credentials', 'Plan', and 'Connections'. The main panel features a 'Start by launching the tool' section with a 'Launch Watson Assistant' button, a 'Getting started tutorial' link, and an 'API reference' link. A 'Full-screen Snip' button is also present. To the right, the 'Plan' section shows 'Lite' as the selected plan with an 'Upgrade' button. Below this, the 'Credentials' section displays the 'API key' (masked with dots) and the 'URL' (`https://api.us-south.assistant.watson.cloud.ibm.com`), each with a copy icon. The Windows taskbar at the bottom shows the search bar, task view, and various application icons, along with system information like 32°C and the time 02:13 PM on 04-11-2022.
